

THE ALL- NEW SIRUS DACIA REAR PASSENGER

Designed for you
and your family

In Partnership with

UK's only Wheelchair Accessible Car

Compact, stylish and economical, our latest design is based on a highly acclaimed car, winner of Auto Express 2022 Family Car of the Year.

Featuring the length of an estate, the spaciousness of an MPV and the robust style of an SUV, the All-new Dacia Jogger combines the best of these categories in a wheelchair accessible family car.

Equipped with a 110bhp 1.0-litre, three-cylinder petrol engine and a six-speed manual transmission gearbox.

DRIVE WITH COMPLETE PEACE OF MIND

Built on the latest platform, the Dacia Jogger has a reinforced body structure and new-generation assistance systems that make driving easier. Features include automatic emergency braking, blind spot warning and a wide and functional dashboard that makes it easier to read the instrument panel and multimedia screen.

ESSENTIAL, EXPRESSION AND EXTREME SE

Choose from one of three ambiances. The entry-level Essential includes rear parking sensors, cruise control, air-conditioning, a DAB radio and Bluetooth. Increase your options to include electrically adjustable door mirrors, front parking sensors, climate control, an 8-inch media touchscreen, gloss black alloy wheels and door mirrors, a shark-fin aerial, distinctive decals and Megalith Grey skid plates. Visit our website to read more.

CHOOSE YOUR CONNECTIVITY

The system of your choice provides the essentials and more, right up to AndroidAuto™ and Apple CarPlay™ smartphone replication on vehicles equipped with the 8" touchscreen (smartphone connection via USB cable). You also get to enjoy 3D sound (Arkamys™ System) thanks to the six speakers distributed throughout the passenger compartment.*

*Connectivity depending on trim level.

Enjoy the ride

Sirus has applied our engineering expertise to create a unique solution - the first of its kind and currently the only conversion in the UK based on a car as opposed to a model derived from a commercial vehicle.

SEATING POSITION AND HEAD HEIGHT

The wheelchair user enters and exists from the rear via a light, counterbalanced manual ramp. The floor is lowered equalling a maximum seated head height of 138cm.

As standard we include the cleverly designed extra headroom pocket and four-point manual wheelchair restraints from Q'Straint.

DIMENSIONS

Seated head height - 138cm / 54"

Entry height - 130cm / 51"

Ramp width - 76cm / 30"

Ramp length - 104cm / 41"

Q'STRRAINT

SEATING OPTIONS

Our conversion is designed to give you space for up to six people as standard - driver, front passenger, one wheelchair passenger and three rear passengers*. If you need more space you can easily fold away one, two or three rear seats giving you extra space for larger wheelchairs or equipment.

*Please note, up to six people is dependent on wheelchair type and weight. During your demonstration please ask for further information.

Car pictured: Dusty Khaki / Extreme SE

Option 1 - A very popular option, two rear seats folded - space for three plus wheelchair.

Option 2: All three rear seats in use - space for five plus wheelchair.

When not in use rear seats securely fold away.

Option 3: Three rear seats folded - space for two plus wheelchair.
